

What is claimed is:

(Claim 1) A wig comprises:

a main wig portion with a part having a cap and hair mounted thereto and an opening along the part; and

a detachable wig portion mounted over the opening and affixed to the main wig portion to be removed permitting natural hair to extend therethrough creating a natural hairline.

(Claim 2) A wig in accordance with Claim 1 further including:

a shaped metal element mounted about the wig opening and a fabric portion mounted thereover.

(Claim 3) A wig in accordance with Claim 2 wherein:

the detachable wig portion comprises a substantially Omega shaped plastic lower portion and an upper portion having a mesh covering and hook and loop fasteners mounted thereon to secure said wig portion to the fabric portion of the wig over the wig opening.

(Claim 4) A wig in accordance with Claim 3 wherein:

the detachable wig portion further comprises a plastic lower portion having opposing legs and a base joining said legs and a mesh upper portion mounted over the legs and across the opening and having hair secured to the mesh portion.

(Claim 5) A wig comprising:

a main wig portion comprising a net with hair attached thereto and an opening along a selected part; and,

a detachable wig portion mounted over the opening and designed to be removed to pull the user's hair therethrough to create a natural hairline.

(Claim 6) A wig in accordance with Claim 5 wherein:

the main wig portion includes a shaped stainless steel element mounted about the opening and a fabric covering mounted thereover; and,

the detachable wig portion includes a mesh portion having hair mounted thereto.
